

MEMORANDUM

GARY L. MILLER
Chancellor

TO: University Community

DATE: October 17, 2018

FROM: Gary L. Miller

SUBJECT: Return to Faculty

By now you have learned of Provost Greg Davis' decision to move back to the faculty of the College of Science, Engineering and Technology in the Fall 2019.

It has been my great honor to be Greg's colleague in the university leadership team for nearly five years. What he has accomplished in his tenure as Provost is truly remarkable and most certainly will be the foundation for all future success. I will very much miss doing big things with Greg but I am happy he will continue to part of our university community.

Because of his work UW-Green Bay has accomplished a transition for the future few institutions have achieved. Greg's ability to focus his love for this university into a bold agenda for change and his success at executing that plan have now put UW-Green Bay in a position to be one of the most important institutions of higher learning in Wisconsin and the nation. Please join me in wishing him the very best and thanking him for what he has accomplished on our behalf.
