PROGRAM: Concentration in Analysis-Synthesis

A. OVERALL PRIORITY (SUMMARY)  

1. This program should be considered for elimination, consolidation, or major modification.  
   Priority ( )  
   No ( )  Yes ( )

2. Overall Comment and Recommendations:

   1. Mission is too broad; should be more specific.

   2. Should be more clearly differentiated from Communication Action.

   3. There should be better cooperation with other units, including cross listing with such units as CES and CHB.

   4. There should be a more structured organization of curricular offerings with respect to mission statement and other units.

   5. The committee supports the role of the humanities, but this role should be more clearly articulated; it commends the reworking of the curriculum which has occurred to date, and hopes that it will be refined further.

* Priorities are to be assigned by the Divisional Committees as follows: 3(highest priority); 2(average priority); 1(low priority); 0(no priority). This Digest is based on and is keyed to the UWGB Program Review Format previously and independently completed by the executive committee of the program in question. The "Overall Priority" should be the average of the categorical priorities given in Sections B through 0 below.
